# Mifos Grails Frontend Spike

## └ Intro

Intro

- Mifos frontend spike using Grails application framework
- plan for incremental migration

Spike == proof of concept. Plan, as in, I'll deliver one in this presentation.

Mifos Grails Frontend Spike

└─ Unimog

This is the Mercedes UNIMOG. It's got a flexible frame, and higher ground clearance than a Hummer. It can drive over boulders 1m in height. It can power a backhoe, a snowblower, and other farm equipment. The steering wheel can be changed from left- to right-handed in the field.
